

If anyone has a better track record, buy from *them*.

(Why trust YOUR NETWORKS to anyone but The Best?)

"Microwave Bypass is, in Aberdeen's estimation, the unchallenged leader in the Ethernet microwave LAN market."

Aberdeen Group
Profile, August 1995

"We have seen it perform flawlessly in all types of weather (sleet, snow, fog, ice, rain) and it has been maintenance free as well. Our user community has commented on numerous occasions about the increased performance and reliability..."

NAVEODTECHDIV
(Customer Letter)

"Microwave Bypass performed flawlessly. The communications link went up during the scheduled timeframe. Your team stayed on the job until everything was functioning according to specifications. The link has remained 'up' and has performed flawlessly ever since."

SRA Technologies
(Customer Letter)

"The solution for Desert Sands School District was to install full-speed Ethernet-over-microwave links from Microwave Bypass. At \$30,000 each, the 21 Microwave Bypass microwave links interconnect all schools in the district at less than one-tenth the cost of fiber optic links and about one-third the cost of T1 leased lines."

COMMUNICATIONS WEEK
March 14, 1994

"Users and analysts have praised Microwave Bypass' service and support."
